Abstract—**The abstract goes here. Keep it short (approx. 3-4 sentences)**

I. PROBLEM OVERVIEW

Here you should describe your problem

II. PROPOSED APPROACH

In this section, you will present your solution. Please fill in accordingly.

You can use citations as follows: [1] (you can add BibTeX citations in the *bibliography.bib* file).

A. Preprocessing

B. Model selection

C. Hyperparameters tuning

III. RESULTS

Here you will present your results (models & configurations selected, performance achieved)

IV. DISCUSSION

Any relevant discussion goes here.
